**MDCOM Speaks at National Convention Showcasing
Leading Telecommunication Companies**

***Eric Lutz Shares His Industry Expertise During Technology Assurance Group's
2006 National Convention***

TAUNTON, MA — DATE — MDCOM, an industry leader in telecommunications, announced today that the company's President, Eric Lutz, spoke at a national convention showcasing North America's leading telecommunication companies. Technology Assurance Group (TAG), a national organization of independently owned telecommunication companies representing over \$300 million in products and services, of which MDCOM is a premier member, held their 2006 TAG National Convention in San Diego in March. Mr. Lutz shared his valuable industry knowledge during a number of roundtable discussion sessions.

Telecom professionals from both the United States and Canada listened to Mr. Lutz's views on several issues impacting the telecommunication industry. Roundtable sessions covered such topics as how to increase customer profitability, how to recruit and hire the right people, understanding customer relationship management systems, and successfully implementing Voice over Internet Protocol solutions (VoIP).

"We asked Mr. Lutz to share his tremendous knowledge and vast experiences during the industry's largest event of the year," said Dale Johnson, president of Technology Assurance Group. "MDCOM is one of the finest telecom companies in

North America and their participation at our convention adds to our credibility as an organization. All of our member companies, strategic business partners, and industry analysts greatly benefited from Mr. Lutz's valuable insight."

"The TAG Convention gave us a wonderful opportunity to illustrate our expertise in the field for the benefit and betterment of our colleagues," said Eric Lutz, president of MDCOM. "Additionally, the convention enables us to learn better business practices so we can provide cost-effective solutions to our customers and help give them a competitive advantage, improve their profitability, and enhance their overall productivity."
