MDCOM to Speak at National Convention Showcasing U.S. and Canada's Top Telecommunications Providers

Eric Lutz, President of MDCOM, to Offer His Industry Expertise During Technology Assurance Group's 2006 National Convention

TAUNTON, MA — March 10, 2006 — MDCOM, an industry leader in telecommunications, announced today that the company will speak at a national convention showcasing both U.S. and Canada's top telecommunications providers. Technology Assurance Group (TAG), an association of independently owned telecommunication companies, of which MDCOM is a premiere member, invited Eric Lutz, the company's President, to share his industry expertise during a series of roundtable discussions. These discussions will cover a variety of hot topics impacting telecommunications and the global business environment. TAG's 2006 National Convention will be held March 8th – 10th in San Diego, California.

Hundreds of telecom professionals representing voice and data providers, major industry manufacturers, and trade journals will listen to Mr. Lutz offer his valuable insight on issues facing communications technology, business processes, customer satisfaction, and corporate training. The roundtable discussions are the most popular activity of the convention because it's an opportunity for open exchange of ideas and information.

"Mr. Lutz's vast knowledge, experiences, and accomplishments in

our field is quite impressive," stated Dale Johnson, CEO of TAG. "It will be an honor to have someone of his caliber address our Member companies at our largest event of the year. Everyone in attendance will be treated to a valuable learning experience."

"It is a great privilege to share our challenges and experiences with TAG members across North America," said Eric Lutz. "Participating at TAG's annual event enables us to interact and learn better business practices from leading companies in our industry. We implement new ideas and approaches that not only improve our company, but provide cost-effective products and services to our customers. The TAG Convention presents us with an awesome opportunity to identify new technology solutions that give the companies we serve a competitive advantage, improved profitability, and a higher level of productivity."

ABOUT MDCOM

MDCOM is a full service telecommunications company operating throughout the Northeast. The company's focus is on implementing technologies to help improve business profitability, and ensuring that the highest levels of customer care are achieved. MDCOM uses factory certified technicians and provides 24/7 service with 2 hour emergency response.

MDCOM provides business customers with a one-stop source for

Telephone System, Network Services, and Peripheral Products, helping businesses simplify their communications networks, improve office efficiency, and ultimately increase bottom-line savings.

MDCOM is an authorized distributor of several leading equipment and service providers, including Inter-Tel, ShoreTel, Comdial, Mercom, Oaisys, Clear2There, Cisco, and Adtran.
