

Wells Fargo Foothill Capital

Project

40 King Street W
Toronto, Ontario

Date

Spring 2008

Design

Gensler

Wells Fargo Foothill is a national client with Office Resources with typicals and standards that are used throughout each location. Each of their offices has a unique finish palette that exemplifies clean design. Their standard private office typical is a Knoll Reff 'U' shaped unit with plenty of storage. Their workstation typical is Knoll Autostrada, which mixes the use of aluminum, glass and wood to create a harmonious working space. Nienkamper conference tables and credenzas are well equipped with the latest technology, while still showcasing high design. Throughout their spaces are accents of Knoll Studio furnishings that are used to unite the mixed-use spaces. These are found in their cafes, conference rooms, private office, lounge and reception.
