

News Release- IFMA Sponsors New Members Breakfast at Spaceworks Architectural Interiors New Showroom

April 25, 2007. Waltham, MA. The International Facility Managers Association's New England Chapter held a New Members Breakfast at Spaceworks Architectural Interiors new showroom in Waltham on April 25. "It was great to see such a good turnout of new and long time members of IFMA" said Sean Murphy, President of IFMA. "I was very impressed with the new showroom and learning about Spaceworks Architectural Interiors approach to modular interior construction. I will be evaluating the SAI suite of products for potential use on future projects at Liberty Mutual. I believe that Spaceworks Architectural Interiors has figured out how to deliver a first time, cost effective alternative to conventional construction"

Spaceworks Architectural Interiors (www.SpaceworksAI.com), recently announced that they have launched a suite of architectural interiors products representing several manufacturers' "Best of Breed" solutions for the modern workplace.

SpaceworksAI is motivated to address the challenges caused by rapidly rising construction costs and increased regulations within the construction industry. Additionally, with this hand-picked selection of products, SpaceworksAI will support companies and end users wanting to be better stewards of the environment by utilizing products that are reusable and sustainable.

SpaceworksAI is offering structured zone cabling for voice, data, and power in a low-profile technology platform, designer-specified architectural movable walls and office fronts, modular floor coverings, sound masking systems, and a range of office furniture.

SpaceworksAI provides a single source for the schematic design, pricing, project management, and installation of their suite of product solutions.

SpaceworksAI is offering its products and services to end users, property developers, architects, and designers directly, and through appointed dealers in New England. In addition, SpaceworksAI will be a sub-contractor to general contractors who can offer SpaceworksAI's products and services as cost-effective alternatives to conventional construction.

SpaceworksAI's management team includes Stuart Hodas, Tabitha Joy, and Paul Carter. Stuart has been a champion of the modular European model of building for the past four years. In addition, Stuart has 25 years of sales, management, and business ownership experience. Tabitha's experience spans seven years of managing contract installations in the US, and five years of on-site construction experience in Bosnia and Kuwait while serving as a Technical Engineer with the US Army Reserve. Paul Carter, Advisor and Consultant to SpaceworksAI, has over 30 years of general and construction management experience. With Turner Construction and Payton Construction, Paul has successfully completed hundreds of projects in the Boston area.

Having carefully researched each aspect of the architectural interiors market, SpaceworksAI has chosen the following manufacturers and products as “Best in Breed” solutions for their customers:

Flexspace (www.cablefloor.com). Offering turnkey modular electrical power distribution and network cable management products that are engineered to optimize the efficiency of facility and network construction and installations, moves, adds, and changes. Their signature low-profile technology flooring, Cablefloor, is the most advanced, practical, and cost-effective way to distribute and organize all electronic cabling systems.

Infinium Architectural Walls (www.infiniumwalls.com). Providing the Next Generation of movable architectural walls, Infinium’s products offer unique compatibility with power, communication, technology, and furniture. They are aesthetically exciting, user friendly, and high performance wall systems that deliver privacy and flexibility with the highest acoustical rating in the industry. They are also cost-effective, customizable, and delivered in four weeks or less.

Dynasound Sound Masking (www.soundmasking.com). Tailored solutions to reduce distractions, protect sensitive conversations, and improved productivity in open plan, private office, or call center workplaces.

Mohawk Floor Coverings (www.mohawkcarpet.com). A global leader in floor coverings, Mohawk brings together today’s top talent to create signature designs, to engineer high-performance carpet systems, and to innovate leading-edge environmental solutions.

A selection of office furniture (www.spaceworksfurniture.com). SpaceworksAI offers a range of furniture solutions that can be tailored to each client’s budgetary, aesthetic, and technical needs.

SpaceworksAI has opened a new showroom that features the range of products and fully demonstrates how each element interacts with the others in a comprehensive and cost-effective architectural interiors solution. The showroom is open to clients and partners at 225 Wyman Street, Waltham MA.
