Dear Janet,

I would like to thank you for all of your help and hard work with the recent replacement copy machine for The Liberace Foundation. Your recommendation was perfect for our needs. Not only are we saving a substantial amount each month, but our productivity has increased. In addition, the under one minute warm up time is a great feature on a busy morning.

Emeritus Directors

Please also extend our thanks to your training team. They made what seemed to be a complicated issue into a simple pleasure.
