To Whom It May Concern

PABCO Gypsum is pleased to recommend the products and services of Nick DeAscentis and Advanced Imaging Solutions. Prior to our consultation with Nick, we did not have a good idea of what our costs associated with document printing were.

His free cost analysis clearly showed our spending patterns and provided practical and effective solutions for improving productivity. Nick's professionalism helped guide us through the process. The training and support has been exceptional.

On behalf of PABCO Gypsum this letter expresses our sincere thanks!

Respectfully,

Lenny Ordway  
Office Manager  
PABCO Gypsum  
Las Vegas Plant
