

# IP SIMPLE

## A SMART SOLUTION FOR YOUR CRITICAL BUSINESS NEEDS.

Windstream IP Simple is a Managed Unified Communications solution, offering you the opportunity to leverage an award-winning Allworx phone system to enhance VoIP and data communications. Concurrent with your network service agreement, there's no upfront capital expense for your business. Windstream will own and manage the phone system equipment on your behalf.

Realize the full benefits of Session Initiation Protocol (SIP) with an IP Simple solution customized to your current and planned future business needs. There are multiple PBX options based on the number of employees to be served, thus enabling capabilities like presence management, multi-site integration and unified messaging.

**Get data, voice and a phone system — all from one provider, on one monthly bill.**

---

## FEATURES

**OFFERINGS:** You can choose a PBX: either the 48x, which supports up to 250 users, or the smaller enterprise PBX solution of a 6x, which is designed for companies up to 60 employees.

**FLEXIBILITY:** You decide the specific hardware and software elements that best suit your business.

**SUPPORT:** Regular maintenance, when required, is included. Plus, several end-of-contract options exist for this IP phone system rental solution such as renewing at a negotiated rate, purchasing at fair market value or upgrading the equipment.

---

## BENEFITS

**TECHNOLOGY:** Windstream owns the equipment and is always researching and frequently implementing new technologies that enhance business productivity.

**AVAILABILITY:** Our IP Simple solution is scalable and ready to grow with you as your needs expand.

**EXPERTISE:** Windstream delivers locally based technical support, so provisioning and upgrades are done quickly and efficiently.
