CLEANING CODE & INSTRUCTIONS	
W	Use Water Based Cleaner
	For best results, use a powdered enzyme detergent mixed with water. Use a soft towel or brush to completely clean upholstery with soap solution. It is very important to remove all soap residue with clear, clean water.
	Spills: The faster you take care of any problems, the better and easier results.
	Some solvents harm Crypton's finish, so DO NOT use any solvent cleaners.
Supplier	Actual fabric samples available as outlined below.
