**Managing the workplace strategically**

Creating and managing a high-performance workplace demands the thoughtful planning of numerous diverse and interconnected issues

- Define goals and measure results in line with corporate strategies
- Apply architecture, furniture and technology products—insuring flexibility, dependability, adaptability and environmental responsibility.
- Combine efficiency and effectiveness by focusing on how people actually work and by applying the appropriate planning principles.

Note: Some application restrictions may apply for seismic zones 3 and 4

Each worksetting addresses these planning principles at varying levels based on need. This worksetting maps out as follows:
