KEILHAUER

## Environmental Info

### Corporate Overview

At Keilhauer we have incorporated a big time goal to drive our efforts in future years. Our big time corporate goal is to use closed loop manufacturing to create products that support the person.

In managing our business we have key areas where we concentrate our efforts and each gets considerable attention. Planet Keilhauer is our environmental initiative. We feel that it is important that we work as quickly as possible to create a company that is environmentally benign (CLOSED LOOP).

The basic elements of our plan are to use others' waste (recycled materials) or sustainable sources of raw materials to create our products, to ensure that our products are fully recyclable, to use as few resources as possible in the manufacturing process and to ensure that we minimize or eliminate waste and emissions. We would like our footprint on the world to be very light.
