

# Commvault Software integration with HPE StoreOnce Catalyst

Commvault® is a recognized leader in ultra-scalable backup, recovery, and data management and now integrates with HPE StoreOnce Catalyst to simplify data protection across hybrid cloud environments. Commvault Software oversees the full lifecycle of data management operations for HPE StoreOnce Systems, including managing the backups and movement of data. This integration maintains deployment simplicity, improves performance, lowers costs, enables faster disaster recovery, and simplifies backup to the cloud.

<b>Business outcome</b>	<b>20x lower cloud storage costs<sup>1</sup></b>	<b>95% less storage and network traffic<sup>2</sup></b>	<b>Seamlessly move data where required</b>	<b>Fast, efficient use of storage</b>	<b>Optimal flexibility</b>
<b>Capability</b>	 <b>Seamless backup to the cloud</b>	 <b>Source-side deduplication</b>	 <b>Automated replication for DR</b>	 <b>Synthetic full backups</b>	 <b>Leading enterprise backup software</b>
<b>Feature</b>	Cloud Bank Storage integration for long-term retention and reliable DR	Low-bandwidth mode to reduce redundant data and improve network performance	Catalyst Copy integration for replication to another appliance or to the cloud	Catalyst Clone integration for synthetic full backups	Unparalleled breadth and depth of coverage across storage, apps, DBs, cloud storage, hypervisors, and tape <sup>3</sup>

<sup>1</sup> Based on the 20:1 dedupe ratio that reduces cloud storage cost.

<sup>2</sup> Based on the 20:1 dedupe ratio that reduces storage and network requirements.

## Customer FAQs

**Q:** Which deduplication technology is used?

**A:** This integration allows customers to take full advantage of Commvault software while leveraging HPE StoreOnce deduplication technology.

**Q:** How do I get this functionality?

**A:** This functionality is included with Commvault Complete™ Backup and Recovery at no additional cost.

**Q:** How do I get HPE StoreOnce Catalyst updates? Do I need to manage them separately from Commvault software updates?

**A:** HPE StoreOnce Catalyst updates are included in Commvault service packs and do not need to be managed separately.

**Q:** What additional client configurations are required after the initial installation?

**A:** None.
